**Re: SigmaPoint Technologies classified as an Essential Service Provider and remains open.**

Dear *Valued customer*,

We are writing to inform you that all SigmaPoint manufacturing sites have been deemed an essential service provider for Ontario & Quebec.

SigmaPoint's customers are represented in sectors that have been deemed essential by these provinces such as: Medical Devices, Defence, Military, Power Generation, Tele-communications & Transportation.

SigmaPoint Technologies facilities located in Cornwall & Kitchener Ontario, produce products that are essential for its Canadian customers and will remain fully operational. Letters have been sent to our suppliers so they may demonstrate they are also essential through extension of supporting SigmaPoint.

Furthermore, SigmaPoint is a registered company with Health Canada as a Manufacturer ready to mobilize to support the production of: Ventilators, Life Support Systems & Diagnostic machines to assist Canada's 'Call to Action' manufacturing program.

SigmaPoint is also currently working with Minister Bains office of Innovation, Science and Industry in order to continue providing further essential services to our Healthcare industry.

As we continue to support our customers through this period of COVID-19 uncertainty our #1 priority will always be the health & safety of our employees and their families. Measures are in place to ensure SigmaPoint employees are safe from COVID-19 during hours of operation.

If you have any question, do not hesitate to contact us.

Sincerely,

A handwritten signature in blue ink, appearing to read "Dan Bergeron", with a stylized flourish at the end.

Dan Bergeron

CEO & President
